

KEVIN TANES

Full-Stack Web Developer

Jakarta, Indonesia | +6285263157712 | kevin.tanes@gmail.com | [LinkedIn](#) | [GitHub](#)

SUMMARY

Full-Stack Web Developer with hands-on experience across React, Next.js, Node.js, TypeScript, and modern full-stack tooling (Prisma, TanStack Query, Tailwind CSS, shadcn/ui). Led the frontend architecture and stack migration for a marketing website, cutting initial load time by 35%, and previously built and maintained a multi-platform Learning Management System end-to-end. Continues to actively build full-stack side projects to stay current with the latest ecosystem tools and best practices.

WORK EXPERIENCE

Quality Assurance Engineer — Pegatron

Aug 2025 – Sep 2026

- Supported production quality checks and cross-functional coordination with engineering and production teams to ensure on-time, defect-free product shipment

Frontend Developer — PT Cheil Worldwide Indonesia

Mar 2025 – Jun 2025

- Led development of a new marketing website using Vite, React, TypeScript, TailwindCSS, and shadcn/ui, reducing initial load time by 35% versus the previous stack
- Decoupled a previously monolithic backend/frontend into an independent architecture, improving scalability and enabling independent deployment
- Built reusable global components to improve UI consistency and speed up development across pages and features
- Set up a maintainable GitLab workflow, achieving 100% issue-tracking adoption across the frontend team
- Maintained weekly syncs with PMs and clients, delivering the project with zero major revisions post-delivery

Fullstack Web Developer — PT. Purwadhika Kirana Nusantara

Aug 2023 – Aug 2024

- Led development and maintenance of the Purwadhika Main Website and an interactive Learning Management System (LMS) for student class management
- Designed and delivered the Purwadhika Corporate Training Platform, an interactive LMS for organizational clients
- Built the Purwadhika Admin Website to streamline transaction management, admin role assignment, and program administration
- Built responsive interfaces with React, Next.js, Material UI, and TanStack Query, using Redux for state management, integrated with an Express/Sequelize/Strapi CMS backend
- Architected secure, scalable backend data flows using an optimized ORM and CMS integration

PROJECTS

BookEase — Service Booking Web App — Personal Project

[Link](#)

- Full-stack booking platform: React, TypeScript, Vite, Tailwind CSS, shadcn/ui, TanStack Query (frontend); Express.js, TypeScript, Prisma, MySQL (backend)
- Built the end-to-end booking flow — slot selection, booking summary, and payment integration with Xendit (Invoice API + webhook handling)
- Developed an admin dashboard with paginated booking/user management, a status-transition workflow, and role-based access control

Sales Management System — Personal Project

- Built with Next.js 16, TypeScript, shadcn/ui, Supabase, and Prisma v7
- Implemented custom authentication (bcrypt password hashing + JWT via jose) compatible with Next.js Edge Middleware
- Structured the dashboard using Server/Client Component architecture per Next.js App Router best practices

SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript, HTML/CSS, Tailwind CSS, shadcn/ui, Material UI, Redux, TanStack Query

Backend: Node.js, Express.js, Prisma ORM, Sequelize ORM, Strapi CMS

Database: MySQL, PostgreSQL (Supabase), Firebase (Firestore)

Tools & Practices: Git/GitHub, GitLab, REST API Integration, Responsive Design, Performance Optimization

EDUCATION

Purwadhika Digital Technology School — Full Stack Web Development (2022 – 2023)

Tarumanagara University — Civil Engineering (2014 – 2019)

Santa Maria High School — Ilmu Pengetahuan Alam (IPA) (2011 – 2014)

LICENSES & CERTIFICATION

- Full Stack Web Development – Purwadhika Digital Technology School ([Certification Link](#))

ADDITIONAL EXPERIENCE

Site Supervisor — PT Bangun Menara Abadi

Jul 2021 – Sep 2022

- Supervised field operations, structural inspections, and project budgets prior to transitioning into software development
